

Stick Shaped Products Automatic Multihead Weigher ZD-A10/ZD-A14/ZD-AS14/ZD-AM14

Multi head scale is a Weighing Machine specially used for granular materials. It is usually used as a supporting equipment for Vertical Form Fill Seal Machine and Secondary Packaging Machine. Multi head weigher is suitable for weighing stick shaped products, such as sausage, salty sticks, chopsticks, pencil, etc. max 200mm length. It is also suitable for Pouch Packing Machine. It forms a complete packaging system with Z Type Bucket Conveyor.

Brief Introduction:

1. High-precision, high-standard special load cell, resolution up to 2 decimal places.
2. Program recovery function can reduce operation failures, Support multi-segment weight calibration.
3. No products auto pause function can improve weighing stability and accuracy.
4. Linear amplitude can be adjusted independently, can make the feeding more uniform.

APPLICATION:

It is suitable for weighing stick shaped products, such as sausage, salty sticks, chopsticks, pencil, etc. max 200mm length. Also suitable for VFS Granule Packing Machine.
