

## Rotary Type K CUP Filling and Sealing Machine

AFAK NEW designed for coffee capsules like K CUP, dolce gusto capsules, NESPRESSO, Lavazza capsules etc, this Rotary type has excellent sanitary design and strong structure, the machine adopts most advanced all-stainless steel structure and open design, and it very easy to clean. We understand the need for lean maintenance and cost reduction, so we never use special design components.

### Specifications:

Items	Parameter
Packing speed	50-70 c.p.min
Power Source	1 ph, 220V 50HZ/60HZ
Power	2.5 Kw
Air pressure	0.6-0.8MPa
Air consumption	200L/min
Working Temperature	5-35°C
Nitrogen Consumption	20L/min
Machine Rack size	L1500*W1620*H2150 mm
Weight	750Kg
