

QT150 Abnormal Bubble Gum Machine

This line consists of sugar grinding machine, oven, mixer, extruder, forming machine, cooling machine, and polishing machine. It is an ideal device for producing bubble gum in various kinds of shapes, such as sphere, ellipse, watermelon, dinosaur egg, flagon, etc. With pleasant shape and reliable performance, the plant can be operated and maintained easily.

Main machine specification:

Name	Install Power(kw)	Overall Dimension(mm)	Gross Weight(kg)
Blender	22	2350*880*1200	2000
Extruder(single color)	7.5	2200*900*1700	1200
Forming Machine	1.5	1500*500*1480	800
Cooling Machine	1.1	2000*1400*820	400
Polishing Machine	2.2	1100*1000*1600	400
Capacity	75~150kg/h
