

Automatic Carton Sealer IP- 6050

Automatic Cardboard Box Packer IP-6050 is designed for sealing cardboard boxes using adhesive tape. This is an economical solution, high speed and easy changeover. Conveyor belt and belt tension can be varied to collectively meet the needs of soft and hard cartons. This machine can be included in a production line or as a separate machine. This machine has top and bottom belt drive, pneumatic control of the top belt head and is used in cases where the box size changes frequently. Automatic adjustment of the width and height of the box is possible.

Functions:

- Hassle-free operation
- Robust design
- Low costs

Product Details:

Model	IP- 6050 (Uniform)
Speed (m/min)	20
Height of Table (mm)	635-780
Width of Adhesive Tape (mm)	48, 60, 76
Voltage (V/Hz)	220 / 50
Weight (kg)	150
Grade	Automatic
Adhesive Tapes	BOPP, PVC
Size (Lx W xH)	1755 x 800 x (960 ~ 1605)
Sealing Power (W)	500 x 600
Minimum Carton Size (WxHxL) mm	140 x 110
