

## *CK-HS8-200-S Multi-purpose Peanut Cashew Nuts Pouch Packaging Machine*

This multiple nuts packaging machine is suitable for all kinds of granulated material, like candy, nuts, raisins, peanuts, melon seeds, cashew nuts, preserved fruit, potato chips, banana chips, almond, potato crisps, pet food, etc.

The main optional configurations of multiple nuts peanut packaging machine is material measuring and filling machine, working platform, weight selection scale, material elevator, vibrating feeder, finished product conveying elevator, and metal detector.

### **Working process:**

1. Bag loading: the bag is removed and sent to the machine clip, no bag warning, reduce employment and labor intensity;
2. Print the production date: ribbon detection, alarm when the ribbon runs out, and touch screen display to ensure the normal coding of the packaging bag;
3. Open the bag: open the bag to detect, do not open the bag and do not drop the material to ensure that the material is not lost;
4. Filling materials: detection, materials are not filled, heat sealed and not sealed to ensure that the bag is not wasted;

### **Technical Data**

Model	CK-HS8-200-S
Packing Speed(Bags/Min)	20-40
Bag Size(mm)	W:120-210mm L:150-400mm
Filling Range	10-2500g
Total Power	4.75KW
Overall Dimensions(mm)	1800*1700*1500mm
