

Automatic Tea Bag Packing Machine CB-T2

The packaging bags with drawing line and tag, all the works of bag making, measuring, filling, sealing, cutting and counting can be done automatically. The code machine can be installed according to demand of customers.

- The Automatic Tea Bag Packing Machine is a latest type of heated sealing packing machine, which has multifunction can automatically packing tea or other herbs into inner and outer bag (envelope), avoiding hands directly contacting with stuff materials, improving the efficiency.
- The inner bag is made of filter cotton paper, which can be automatically packed with thread and label. The outer bag is composite heat able material.
- The advantages are photoelectric location for the tag and outer bag, adjustment to the need of the content, length of inner bag and outer bag, and tag. The dimension of inner and outer bag can be adjusted according to the need that to achieve the perfect shape, to upgrade the appearance for the product, then add the value of it.

Features:

- The outer bag is controlled by stepper motor control, bag length is stable, cut position is more accurate;
- PID regulator temperature control, temperature control is more accurate;
- PLC control the whole operation, man-machine interface display, easy to operate;
- Fully SUS304, ensure product hygiene and safety;
- Work cylinder using imported brand, ensure the accurate and stable work;
- Machine has additional devices flat cutting, date printing, easy tear and other functions

Technical Parameters:

Model:	CB-T2
Filling range:	1-15g/bag(special size need to be made customized)
Bag size	(50-75)mm X (50-75)mm (depends on customer requirement)
Tag size	25 X 25 mm
Thread length	MAX 150mm
Packing speed	30-60 bags/min
Dimension	1800 X 950 X 780 mm
Weight	400 kg
Power	220 V/ 50Hz/1.6 KW
