

## DXD-800 Pillow Type Candy Packing Machine

Horizontal pillow type candy packing machine adopts frequency conversion actuator to adjust the speed, and equipped with photocell to track the color mark, low noise, and high speed.

### Application:

Pillow Type Candy Packing Machine is a high speed pillow packing machine for fixed shape objects and all kinds of candies which shape is square, ball, round, column, button, ellipse, various singular shape.

### Main Features:

1. Automatic microcomputer control, automatically display length. Quantity, error, etc.
2. Operation shortcut and convenient, distinct efficiency.
3. High precision, strong sealing performance, high stability.

### Main Specification:

Machine name		Pillow Type Candy Packing Machine:		
Production capacity		300-800bags/min		
Packing shape		Various shape		
Packing range	Length	55 (small five claw)	58-60 (large five claw)	48-52 (six claw)
	Width	18-30mm	18-30mm	15-25mm
	Height	5-20mm	5-20mm	5-20mm
Max. Width membrane		150mm
