

Continuous Band Sealing Machine FR-900 C

Features

1. Sealing length is no limitation
2. Printing function is optional, if you don't want to print, you can turn off the printing function.
3. Max sealing width is 14mm, it can be adjusted.
4. Sealing speed and temperature can be adjusted according to your bag thickness.
5. Sealing belts are oriented horizontally to allow for easy access and high throughput
6. Max loading weight of 3 KGS is ideal for most consumer good
7. It can print date of manufacture, batch number, expiry date etc.

Specification

Type:	continuous band sealing machine
Material :	iron
Sealing width :	max,12mm
Film thickness:	0.03-0.08mm
Sealing speed:	max,13meters/min
Temperature range:	max 300degrees C
Conveyor size(L*W):	775*140(mm)
Conveyor load:	max. 3kg
Net weight:	25kg
Gross weight:	35kg
Power supply:	110V/220V 50/60HZ
Powder consumption:	600W
Overall size:	860*420*360(mm)
Automatic grade:	semi-automatic
Driven type:	electric
Print type:	steel seal print
