

Vertical Capsule Polisher and Sorter

The JFP-60 vertical capsule polisher and sorter comes with the function of polishing, loading, and sorting. The inlet of the pharmaceutical machinery can be connected with the outlet of various kinds of capsule filling machine. In addition, the outlet of the product is capable of working together with metal detector, realizing joint production.

Features

1. The vertical capsule polisher and sorter is designed with the polishing capacity up to 7000 pieces/minute.
2. It can be connected to the outlet of the capsule filling machine.
3. The empty capsule, capsule fragment, capsule with insufficient medicine, and the broken capsule can be sorted out with this capsule sorting machine.
4. Employing ready-packaged structure, this capsule polishing and sorting machine is quite easy for assembly and disassembly.
5. Conforming to the requirement specified in cGMP, the capsule polishing machine is installed with detachable brush for convenient cleaning.

Technical Parameters

Productivity	7000 pcs/min
Power Supply	220V, 50Hz, 1A
Power	180W
Compressed Air Pressure	<0.3MPa
Compressed Air Flow	>270L/min
Vacuum Dust Cleaning	>1000L/min
Vacuum Degree for Dust Cleaning	>0.13mbar
Weight	138kg
Overall Dimensions	682×600×1646mm
