

CI-200 Cotton Inserting Machine

CI200 is economical and easy to operate. The machine can automatically cut off the belted cotton and insert it into the container accurately and speedy. This fully automatic cottoner inserts a predetermined length of cotton, rayon or polyester coil into containers at speeds up to 80 cpm

- Nutraceuticals
- Pharmaceuticals

Feature

- Insert speed up to 80 CPM
- Heavy duty construction
- Guillotine tearing device
- PLC and HMI controls

Technical Parameter

Model	CI-200
Insert Speed	40-80 bottles/min
Dimensions	1600mm×600mm×1500 mm(L*W*H)
Weight	250kg
Power	1500W
Voltage	220V
Frequency	50-60Hz(optional)
Working direction	Left → Right (or Right → Left)
