

Carton opening machine BCKX15-01

Carton opener is small in size, easy to operate and adjust. Automatic warning and reminder to replenish boxes; can replenish boxes at any time without stopping; fault alarm and stopping without damaging cartons. It is an essential packaging equipment in automatic mass production. The opening action is completed automatically with stable performance, which saves manpower greatly. This carton opener is widely used in daily chemical, pharmaceutical, food, color cosmetics, beverage, tobacco, electronic and other industries.

Using this opener instead of manual labor, it can reduce at least 2-3 packing workers and save 5-10% of consumables.

The unpacking machine can increase the efficiency by 30%, greatly saving cost and improving work efficiency; it can also realize the standardization of packaging.

Features:

- Automatic opening, automatic folding of the lower lid, automatic tape sealing at the bottom of the carton.
- This machine adopts PLC+HMI control, simple operation, easy maintenance and stable performance. It is the necessary assembly line equipment for automatic scale production.
- Folding bottom without stopping, folding bottom and tape sealing during conveying; complete the whole process of sucking box, forming, folding bottom and tape sealing in 3 seconds; high speed, stable, convenient and economic.
- The glue spraying machine adopts American Nordson brand, stable and efficient. (Optional)

- Installed with transparent plexiglass protection cover, open the door to stop when it runs automatically to avoid operation accidents.
- Using this opening machine instead of manual, it can reduce at least 2-3 packing workers, save 5-10% of consumables, improve 30% of efficiency, greatly save cost and improve efficiency.

Technical Parameters:

Model	BCKX15-01
Unpacking capacity	15box/min
Temporary storage of cartons	100pcs
Carton size	L:200~400mm
	W:150~350mm
	H:100~350mm
Tape size(optional)	48、60、75mm
Voltage	110/220V 50/60HZ
Power	1.5KW
Air pressure	0.5~0.8Mpa
Machine weight	800kg
Machine size	L:2100mm W:1800mm H:1900mm
