4. The packaging machine is equipped with a computer control system.
5. We have installed constant temperature heating system ensuring stable temperature and keep temperature is $\pm 1^{\circ}\text{C}$.
6. The bag size and packaging number can be customized by customers.

Product Parameters

Material	stainless steel
Filling range	10-100ml; 20-200ml; 30-300ml;50-500ml;100-1000ml
Function	weighing, filling, sealing and cutting
Working speed	about 18-26 times/min
Sealing type	3 side sealing and back sealing type
Formed pouch width	30/34cm
Voltage	AC 220V/110V 50-60Hz
Power	500W
Dimension	1170*540*1550mm
Weight	160kg
