

## **Automatic Ginger Candy Cut and Wrap Pillow Packing Machine Gingerbon Packaging Machine JY-ZB650**

### **Specification**

1. Schneider servo control system, simple transmission structure, low failure rate.
2. The control system adopts motion controller, Schneider servo motor, Schneider touch screen. SICK color scale sensor, Schneider low voltage electrical appliance.
3. The machine is equipped with automatic film splicing device to keep the machine running continuously
4. Cutter, film feeding, feeding and feeding parts are independently controlled by servo motor, easy maintenance and simple maintenance
5. It has the advantages of fast packaging speed, stable operation and low noise.
6. The packaged goods have the characteristics of beautiful appearance, strong sealing and long storage life.

### **Technical Specifications**

<b>Model</b>	<b>JY-ZB650</b>
Packing speed	300-650 pcs/min
Machine Dimension	2000*1000*1580mm
Net Weight	850KG
Power	380/220V customized according to the real condition
Wrapping materials	OPP/ CPP OPP/PE/PET, heating sealing materials.
Power	4.5KW
