

## *SH-AFC39 4 Heads Automatic Monoblock Peristaltic Pump Rotary Care Solution Lab Vial Glass Small Bottle Filling Capping Machine*

### **Main Feature**

- ▶ Controlled by cam system, liquid filling and vial crimping can work at the same time, greatly improve your working efficiency.
- ▶ Equipped with peristaltic pump, ensuring packaging quality.
- ▶ Has a compact machine body, it's good for small scale production like care solution, solvent, etc.

### **Parameter**

- Voltage: 110/220V 50-60HZ
- Filling pump: Peristaltic pump
- Filling nozzle quantity: 4
- Filling range: Customized
- Filling accuracy:  $\pm 1\%$
- Working capacity: About 4000BPH
- Material of filling nozzle: SUS304
- Material of vibratory bowl sorter: SUS304
