

SUNHAN

SH-MC61 Vertical Form Automatic Quantitative Granule Pouch Sachets Volumetric Cup Filling Sealing Packing Machine

Main Feature

- ▶ With measuring cup filling to ensure precise quantitative filling for various granular products.
- ▶ Supports 3-side seal, 4-side seal, and back-side seal, adaptable to different packaging needs.
- ▶ Sealing temperature and cutting length are adjustable, suitable for different film materials and sachet shapes.
- ▶ Can be equipped with a date coder to print production date or batch.

Parameter

- Machine Model: SH-MC61
- Power Supply: 110/220V 50-60Hz 1.4kW
- Packaging Speed: About 30-70 bags/min (depending on bag size)
- Measuring Method: Measuring Cups
- Measuring Range: 1-100g (Customizable)
- Bag Size: 30-170mm(L)*30-130mm(W)
- Sealing Method: 3 sides/4 sides/back side sealing
- Packaging Materials: BOPP/Polyethylene, Aluminium/Polyethylene, Paper/Polyethylene, etc.
- Machine Size: About 930*1020*1740mm(L*W*H)
- Package Size: About 1160*970*1930mm
- Package Weight: About 290kg
