

BSE4535/BSE5038/BSE6040 BSE Series PE Film Heat Shrinkable Packaging Machine

Product introduction:

- ◆Works with all kinds of shrink film
- ◆Digital temperature controller
- ◆Top & bottom & side heating
- ◆Variable speed belt conveyor
- ◆Roller or Net conveyor belt, options
- ◆Large power double fan motor, assure enough circulate wind
- ◆Reinforced conveyor motor to ensure steady transport
- ◆Super-strong cooling system to ensure perfect shape after heat-shrinking.
- ◆Solid conveyor rollers coated with silica gel to bear heavy objects and minimize damage and wear
- ◆Digital temperature controller

Technical parameters:

Model	BSE4535	BSE5038	BSE6040
Power supply	3 Phase 220V,380-460V/50-60HZ		
Heater power	20kw Adjustable	20kw Adjustable	26kw Adjustable
Conveyor speed	0-10m/min	0-10m/min	0-10m/min
Tunnel size	1200×450×350mm	1200×500×380mm	1800×600×400mm
Conveyor loading	25kg,Max.	25kg,Max.	25kg,Max.
Machine weight	220kgs	250kgs	285kgs
Machine size	2200×730×1440mm	2200×780×1470mm	2800×880×1570mm
Shrink film	PE, POF, PVC, PP
