

TB-D250 Double Head Labeling Machine

Double Head Labeling Machine applies to food & beverage industries as fruit juice bottle labeling, tea bottle labeling, drink bottle labeling, dairy products bottle labeling, pure water bottle labeling, condiments bottle labeling, beer bottle labeling and sports drink bottle labeling etc. Of all kinds of bottles; It's suitable for various kinds of bottle types and bottle material, for example: round bottle labeler, square bottle labeler, flat bottle labeler, curved bottle labeler and cup-shaped labeler, plastic bottle labeler, glass bottle labeler etc.

Features

1. It can label bottle body and neck at the same time, which can reach max. capacity of 2*450 bottle per minute.
2. The machine can be used in two ways. It not only reduces a a trapping label machine, but also proves as cost effective for our clients;
3. It reduces the length of conveying line and avoids the secondary transportation, so that it increase the production efficiency and the capacity of floor area. Of the equipment.
4. It also reduces stumbles in the process and increase the quality of product.
5. It adopts equivalent PLC, positioning module, servo motor and frequency converter. In addition, its touch screen is featured with a humanized operation.

Technical Parameters

Model		TB-D250
Power	kw	3.0
Voltage	v	1P 220
Diameter of bottle	mm	Ø28- Ø125
Applicable Height of Label	mm	30-250
Applicable Thickness of Label	mm	0.03-0.13
Applicable Internal Diameter of Tube	mm	5"-10" adjust freely
Production Cycle	bottle/min	2*250
Shipping Dimensions	mm	3000 x 1200 x 2080
