DJL-8z Desktop Electronic Counter

The equipment counts and fills medicine automatically but bottles should be positioned on manual.
If the kind or filling quantity of medicine is changed, you only need to do simple setup on the touch screen.
This equipment is mainly used for counting and filling of tablets (including abnormal tablets), capsules, gels (including transparent gels and opaque gels) pills and similar solid granules.
Using our own original high anti-dust sensor technology, the machine works accurately with good stability in heavy dust conditions.
Feeding evenly with quiver, special patent filling part protects materials from harm.
