# TB-S Semi-automatic Round and Bottle Labeling Machine

Description

This machine fits for a wide range of products. One machine can basically achieve all the required of product labeling, especially for low volume, variety and changeable specifications labeling which can largely improve the labeling production efficiency and reduce equipment investment costs; it widely used in cosmetics, food, toys, daily chemical, electronics, pharmaceutical, plastics, printing and other industries, such as flat shampoo bottles, packing boxes, cosmetic flat bottles, bottle caps, plastic shell, SD-cards, batteries, flat, arc, circle face, concave, convex or other attached label.

Technical Parameters

Power supply	220V/50Hz 1200W
Speed	40meter/min
Label accuracy	±1mm
The diameter of the bottle	30-130mm (adjustable as your requirements)
The max diameter of the label	350mm
The paper core dimension	76.2
Dimension	L2000*W800*H1400(mm)
GW	150kg
