

Automatic Horizontal Wrap-around Labeling Machine ST215

Application:

This device is suitable for cylinder products that cannot stand smoothly, such as small injection bottles, syrup bottles, oral liquid bottles, small crayons, pipes, lipsticks, batteries and so on.

Main Features:

1. The machine is made of # 304 stainless steel.
2. PLC + LCD touch screen control system.
3. Servo motor driven labeling head, labeling speed is automatically synchronized with conveyor speed to ensure high speed and quality labeling.
4. Can be installed automatic feeder, with the whole machine, the maximum labeling speed of up to 500 bottles / minute

Technical Parameters:

Model	ST215
Labeling speed	Up to 500 / min
Labeling accuracy	±1mm
The size of the paste	Φ10-30mm
Applicable label roll inner diameter	76.2mm
Applicable label Paper roll outer diameter	Maximum Φ330mm
Machine size	L2000*W520*H1550(mm)
Use the motor	220V 50HZ 1000W
