## ***BSX-1D Automatic Single-head Capping Machine***

This machine consists of cap unscrambling structure, grasping and capping structure, conveying part and control system. This capping machine has the feature of simple structure and easy adjustment which is suitable for capping of large drums.

### **Main Performance Parameter:**

- Applicable Width: 100mm~350mm
- Applicable Height: 100mm~500mm
- Cap Specification:  $\Phi 35\text{mm} \sim \Phi 75\text{mm}$
- Speed:  $\leq 900$  bottle/hour
- Air Pressure: 0.6~0.8Mpa
- Air Consumption: 20L/min
- Power Source: AC220V、50Hz
- Power: 2Kw
- Weight: about600Kg
- Machine dimension (L×W×H) : 1500mm×1800mm×2400mm
