

## *Liquid Vitamin Filling Machine*

This E-Liquid filling machine is suitable for:

Daily chemistry, cosmetics. Small glass bottles and plastic bottles such as electronic liquids, essential oils, syrups, etc.

### **This machine function is:**

1. Man-machine dialogue system setting, visual convenient operation, accurate filling level
2. The mainframe running speed is step frequency conversion.
3. The product quantity can be controlled.
4. Multi-failure prompt function (such as depression, no filling and no inserting plug etc).
5. Automatic stop function, if there is no filling, no inner plug in any rail, it may stop automatically.

This machine is two in one filling machine, it can be used for both plastic bottle and glass bottle.

This machine is mainly available to fill essential oil, eye-drops, syrup, e-liquid and other dose liquid into various round and flat plastic bottles with the range from 50-120ml. High precision cam provides a regular plate to position, cork and cap; accelerating cam makes capping heads going up and down; constant turning arm screws caps; piston pump measures filling volume; and touch screen controls all action.

No bottle no filling and no capping.

The machine enjoys high position accuracy, stable driving, precise dosage, and simple operation and also protects bottle caps.

**Parameter:**

<b>Filling Range</b>	20-120ml
<b>Capacity</b>	20-30 Bottles/Minute
<b>Voltage</b>	220V/380V
<b>Filling Precision</b>	$\leq\pm 1\%$
<b>Capping Rate</b>	$\geq 99\%$
<b>Air Supply</b>	1.3 m <sup>3</sup> /h 0.4-0.8Mpa
<b>Dimension</b>	1200*1000*1800mm
<b>Weight</b>	550kg
