

## ***Automatic Aluminum Tube Filling And Sealing Machine MZH-TFS***

The Automatic aluminum shoe polish Tube Filling And Sealing Machine is equipped with date code, leak proof, outer cover door, pipe feeding system, material level sensor, etc. The filling range is 20-150ml.

### **Details introduced:**

1. This automatic aluminum shoe polish Tube Filling And Sealing Machine is suitable for filling, sealing and date printing of products with tubular packaging in cosmetic, daily chemical, pharmaceutical, food, chemical, industrial and other industries.
2. This Aluminum Tube Filling And Sealing Machine has the characteristics of mechanism structure, stable operation, fast speed, high efficiency, low noise, simple structure, convenient operation and maintenance, and few faults.
3. The filling volume of this machine is convenient, fast, beautiful and compact. The tube seat is adjustable and can be adjusted according to the size of filling hose.
4. All contact materials are made of high-quality stainless steel (304 in common use, 316L in medical use).
5. With the unique valve body structure, it can realize the dual-use of paste and liquid. It is an ideal filling and sealing equipment for cosmetics, medicine, daily chemicals, fine chemicals and other industries.

### **Technical parameters:**

Power Supply	380(220)V/50Hz
Productivity	10-50pcs/min
Filling Volume	20-150ml
Tube Diameter	φ16-50mm
Dimension	1700*1000*1700mm
Weight	250kg
