

Automatic Molds Labeling Machine FL-180

Automatic labeling machine can label one side sticker on 502 glue flat bottle, which cannot stand on the conveyer roll, so be put on molds. Suit for different size flat, low weight objects in food, medicine, daily chemical and other light industries. Automatic mold bottle labeling machine Can be used single or be connected to the production line. Use sticky label. High precision.

Features:

- Flat bottle mold labeling machine is widely used in commodity, such as flat bottles/cans/jars/tubes...
- Adopt mature PLC control touch screen control system technology.
- Easy operation with reasonable price.
- Automatic photoelectric detection functions, avoid omitting or wasting labels
- Can be equipped coding machine (optional)
- Can be equipped bag feeding automatically device (optional)

Specification:

Machine model	FL-180
Production capacity	30-200 pcs/min
Bottle width	20-180mm
Label height	20-180mm
Label length	20-180mm
Scroll outer diameter	380mm
Scroll inner diameter	76mm
Rejection rate	< 1%
Motor power	1.5 kW
Weight	260 kg
Dimension	2000x1000x1600(LXWXL)
General power supply	1 Phase, 220V, 50Hz Most Countries
