

## *SM1540 Cap Label Shrinking Machine*

The SM-1540 cap label shrinking machine only heats and shrinks the part of bottle mouth, saving heat energy and not affecting the quality of the objects in the bottle due to temperature. The use of double small power transmission wind turbines, does not cause the label to shift and deform. The height of the furnace is adjustable and can be applied to a variety of bottle types. The SM-1540 cap label shrinking machine can be used in stand-alone operation or in conjunction with production lines.

### **Characteristics:**

- \* Stainless steel heating tube, better temperature
- \* Temperature adjustable, Max up to 250 degrees
- \* Conveying speed adjustable
- \* Turbine wind, good performance

### **Variants & Options:**

- \* Frame Size
- \* Customized straps
- \* Table height
- \* Voltage
- \* Explosion-proof motors

## Technical Parameter

<b>Model</b>	<b>SM-1540</b>
Voltage	380V 50Hz
Power(kw)	3.5
Speed	8000-12000
Maxmum packing size	Φ120*400
Appearance size	1543*494*1467
Cranial cavity size	1000*150*400
Net weight(kg)	130
Use of contractile membranes	POF/PVC/PP
