

ZP-31 Rotary Multi Station Pharma Tablet Press Machines

This multi station rotary press is a double-press type continuous automatic tablet press machine for pressing granular raw materials into tablets. It is mainly used in pharmaceutical, chemistry, foodstuff, and electronic industries and suitable for make large size tablets, such as milk tablet, candy or effervescent tablet.

Characteristics:

- Double press type with high productivity, suitable for making big size tablets.
- Made of stainless steel, the housing is fully closed. The surface of the rotary turret is covered with a hardened layer so that the turret surface is wear resistant. The machine conforms to GMP requirements.
- Adopt transparent windows, tableting state can be observed clearly. The windows can be opened, cleaning and maintenance is easy.
- The double rotary tablet compression machine can stop automatically in case of overpressure.
- Speed adjustable, operation simple and reliable.

Technical parameters:

Model	ZP-31
Dies	31 sets
Max. Pressure	100KN
Max. Diameter of Tablet	25mm
Max. Depth of Fill	15mm
Max. Thickness of Tablet	6mm
Turret Speed	30r/min
Production Capacity	111,600 pcs/h
Power Supply	380V/3PH/50HZ
Motor	5.5KW
Overall Size (L*W*H)	1140*1000*1690mm
Net Weight	1850kg
Note	We are the pharma machinery manufacturers, if you need this machine, please contact us.
