

HT-280 Automatic Glue Labeling Machine

This machine adopts fully-mechanic drive that is made up completely sealing oiling boxes of high smoothness, few troubles and small noise. The motor load is low, the panel, and running disc transmission strap are made of stainless steels that are durable, clean and easy to maintain. It occupies small space and can be moved freely in the work place. The use of paste labeling machine can greatly lower the cost for labeling.

Technical Parameter

Model	HT-280
Device	Variable speed motor
Operation direction	Left/Right
Labeling speed	60-80 <u>pcs/min</u>
Bottle height	25-90mm
Label size	W: 40-110mm L: 40-350mm
Precision	±1mm
Machine weight	660kg
Voltage	220V/380V 50/60HZ 1500W
Machine size	2800X950X1200mm
