

LT-190-I Round Bottle Labeling Machine

The LT-190-I Round bottle labeling machine ,is suitable for cylindrical object labeling of various specifications, which can realize full week/half week. labeling/circumference front and back labeling; The space between front and back can be adjusted arbitrarily;

Optional: circumferential positioning detection device, to achieve circumferential positioning fixed point labeling. It can be matched with synchronous ribbon printer and inkjet printer, which can print digital letters at the same time. Optional ultrasonic sensor for transparent label detection.

LT190 semi-automatic round bottle labeling machine is applicable to various specifications of cylindrical object labeling, widely used in food, cosmetics, chemical industry, wine making, medicine and other industries; Applicable label: dry label, dry film, transparent label, electronic supervision code, bar code, etc.

Technical parameters

Model	LT-190-I Round bottle labeling machine
Voltage	AC22V 50Hz/110v 60 Hz
Power	150W
Label speed	25-50 Pcs/min
Label accuracy	±1mm
Label roll inner diameter	≥75mm
Max label roll out diameter	≤250mm
Suitable	40mm-100mm
Wide of label	W200*L360mm
Machine size	76*54*38cm
Total weight	38kg
