

Automatic Capping Machine (Strigger Cap Multipurpose) CE-680/BX-A

The CE Series machine can automatically stop when no bottle to lock, blocking when out of exit, wrong orientation, damage of the bottle. The wresting force can be adjusted when locking different caps. It's easy to replace the locking heads and the star tray according to different container or bottle caps.

Description:

Automatic Capping machine with feeder is used for glass bottle, PET bottle, plastic theft-proofing cap, tinplate caps screwing. It can be linked with production line and independently working. it can automatically unscrambler the cap by feeder, then send to the capper to tighten.

- Automatically unscrambler the cap by feeder bowl
- PLC control, screwing speed can be adjustable.
- Locating device, easy operating, high efficiency, stable performance.
- Can tight differently bottle caps.
- Cap arranging, drop automatic, easy operation
- Bottles entry in line, continuous capping, high efficiency and quick (capping speed is two or three times as fast as intermittent capping)
- Frictional capping and rotary bottle conveying, no shake and noise.
- Stop itself when meeting trouble and no bottles, it is more safety.
- Applicable to bottles of different specifications with screw.

Technical Parameters:

Model	CE-680/BX-A
Production	30-50 bottles/min
Bottle specifications	Ø 30-120mm
Caps diameter	Ø 20-50mm or 50-85mm
Motor total power	600W
Voltage	220V 50/60Hz
Dimensions	2170*1550*1500mm
	1350*730*1440
Weight	530Kg
