

Instant Tea Packing Machine FY-T180

Application

●Automatic tea bag packing machine has functions of filling, heat sealing, threading, string, labeling and over wrapping. Measure with volume cup, with 1% error, the bag forming and sealing finished by bag former. Suitable for packing broken tea, medicinal tea, coffee and other filterability materials.

Packing materials

- Inner: Filter paper
- Outer: PE/Paper, PE/AL/PET/, PE/AL/PAPER
- Thread: Cotton thread,
- Tag: Paper

Technical parameter

Model	FY-T180 Tea packing machine
Body material	SUS304
Filter paper	(L)50mm-170mm, (W)50mm-120mm
Complex plastic envelope	(L)80mm-160mm, (W)50mm-200mm
Tag	(L)20mm-55mm, (W)20mm-40mm
Thread	155mm
Capacity	50-80bag/min
Air consumption	0.65mpa 0.3m ³ /min
Power voltage	220V 50Hz 1.6Kw
Dimension	L900*W610*H1500mm
Weight of machine	550kg

Features

- Heat sealed rectangular single chamber filter bags with thread, tag & envelopes.
- With high precious volume cups filling system.
- PLC control system, high precision positioning.
- Multi language operation system, simple to use.
- Automatic alarm protection.
- High quality electric parts and Pneumatic system.
