

VFFS 3 OR 4 Sides Sealing Bagger VS36

Technical advantage

- The horizontal sealing using the new anti-folding device, easy to adjust, stable performance
- Servo vacuum film pulling system makes the machine high quality, work stable & longer life;
- Advanced automatic correction system, tracking and positioning accuracy;
- The improved former beautifully designed and the best manufacturing process
- The film pulling frame is simple design, easy to adjust the eye mark and install the film

Technical Parameters:

Model	VS36
Max packing speed	40bag/min
Bag size	(L) 50-260mm(W)60-180mm
Type of bag making	3-side-seal, 4-side-seal
Max film width	120-360mm
Film thickness	0.04-09mm
Packing film material	BOPP/CPP, BOPP/VMCPP, BOPP/PE, PET/VMPET/PLPET/PE,etc
Air consumption	0.08MPs 03m ³ /min
Voltage	3.3kw 220V 50/60Hz
Dimension	(L)1140*(W)1460*(H)1470mm
Net weight	700kb
