

Automatic Bottle Hot Melt Glue Labeling Machine

Advantages

1. Stainless steel 304 of host machine by all cover: smile, athletic, beautiful appearance.
2. The position of cutting blade can be accurately adjusted by manual control cabinet
3. The self - adjustment knob can reset position while change the cutting length of labels
4. Adjustment of label cutting blades is easy and simple, change - over of spare parts
5. Vacuum - grip cylinder is made of high hardness material, the additional old handler can reduce the frictions of labels and prevent static electricity
6. Vacuum - grip cylinder, cutting unit adopt materials which are wearproff, heat protection
7. Meet requirement of various containers, massive modular design, change bottles easily

Technical Parameters:

Speed	3000-6000bpm
Size	2500*1400*1500mm
Power Supply	220/380V
Host Machine Power	4.5KW
Label Materials	OPP, BOPP, PVC, PE, PAPER, PP
Label Thickness	0.03-0.13mm
Label Size	Max L330mm, Max W150mm
Bottles Diameter	50-100mm
Bottles Material	glass, metal, plastic and others
Bottles Shape	round bottles
Air Pressure	84-106.7KP
