

Line Type Big Automatic Lunch Box Sealing Machine HE877

Line type big automatic lunchbox sealing machine is a line type automatic continuous tray top sealing machine for high speed capacity use.

Linear type automatic plastic food tray sealing machine belong to linear type automatic continuous packing machine, the whole machine is made of stainless steel 304. Simple and reasonable structure, sealing of high efficiency and easy operation; Suitable for various sizes of plastic tray, container, lunchbox, bowl and cup heat sealing, it widely used in pharmaceutical, cosmetic and food industries.

Application:

Linear type automatic plastic food tray sealing machine able connect with filling machine, labeling machine, sterilize machines, it's can be work full automatic together, improve production capacity. It's widely adopted in foodstuff, beverage, commodity, cosmetic and medical for industrial use.

Advantage:

1. The whole machine adopts 304 stainless steel and aluminum alloy material, according to requirements of the GMP for food;
2. Adopts famous brand electrical elements, pneumatic and PLC system, suitable for industrial with high capacity request.
3. Screen touch panel easy adjust parameter, Japan temperature controller, photoelectric sensor film location tracking, after sealing design accuracy;
4. Automatic sealing process, saving manpower, improve the sealing quality.
5. Different material, different thickness of a thermal sealing material all can use.
6. Optional add with date printer, filler, longer conveyor.

7. Can be used with a variety of equipment collocation, such as liquid filling machine, paste filling machine, filling packing line etc.;
8. The size of the special specifications can be customized.

Specification:

Model No.	HE877
Voltage	AC110-220V/50-60Hz
Input power	5000-8000W
Tray diameter	50-250mm
Sealing speed	600-2400 pcs/hour
Air pressure	0.5-0.8Mpa
Sealing material	PP, PE, PET, PS and etc.
Gross weight	700-800 kgs
Package size	3050*950*1700mm
