KV-160AIFS Artificial Intelligence Powder Packaging Machine For Chili/Coffee/Cocoa

KV-160AIFS can ensure 100% will not clip to the material, on the other hand, our equipment has weighing function. The packaging accuracy of our equipment can be within 0.1g, and then the products that do not meet the set weight can be automatically removed without manual weighing.

1. The set weight automatically adjusts the number of auger turns, the preset weight can be reached within 4 bags.
2. Automatic weighing and rejection device for weight detection and sorting of finished products.
3. The feeding detection system can track and adjust the insufficient feeding and the change of material density.
4. After setting the weight unmanned control can be realized, and one person can manage 20 devices at the same time.

Application & Bag Type

Application: Milk Powder, Wheat Powder, Sesame Powder, Corn Starch, Flour, Chili Powder, Bean Flour, Coffee Powder, Chocolate Powder etc.

Technical Parameters:

Model	KV-100AIFS	KV-160AIFS
Packing Speed	30-70bags/min	
Packing Capacity	0.5-50g	3-80g
Weighing Accuracy	±0.1g	
Bag Width	15-110mm	30-120mm
Bag Length	40-135mm	50-135mm
Power	220V, 50Hz, 1.5kW(Customized)	
Bag Shape	back sealing /pillow bag/stick sachet/3 side sealing/4 side sealing	
Additonal Configuration	coding printer/gas-filled device/bag connecting device/punch device/easy to tear gap device
