

High Efficiency Chocolate Wrapping Machine U-SBTD300

U-SBTD300 series machines are dedicated for the automatic packing of Tresor Dore (Ferrero Rocher) chocolate product. The model uses aluminum foil as packaging material. The unique design and technology ensure an excellent packing performance at all times.

U-SBF300 series machines are used for arranging and disordered products so that they can be fed into the packing machine steadily and quickly. The machine includes several feeding system, transportation belt and different kinds of steel rails and is controlled by the connecting packing machine, which ensures the excellency and reliability of the packing performance.

Technical Parameters:

Product name	Full Automatic Tresor Dore (Ferrero Rocher)Packing Machine
Product model	U-SBTD300
Packing Speed	260-300 pics/min
Main Function	Packing chocolate/candy
Keyword	chocolate package machine
Material	Stainless Steel 304
Product Dimensions	15-32 mm
Air Supply	0.6 MPa
Usage	Hard candy, pressed candy, chocolate.etc
