

Beer Canning Machine BCGF32-4

Our newly designed BCGF serious monoblock beer filling machine is designed for aluminum can and metal tin can filling, it can suit for can size between 150ml to 750ml, can customized to maximum of 1000ml. On machine surface is only leaving 3 points of bearing support point which makes drainage so easy and without any dirt stain.

Description

- Electric saving
- Precise filling level
- 99.9% yield
- Easy changing for different design bottle
- Speed adjustable

Technical parameters:

Model	BCGF32-4
Capacity (B/H)	200-250CPM (250ml)
Suitable Bottle Size	150- 750ml
Water Pressure	0.18-0.25Mpa
Filling valves	32
Capping Heads	4
Filling Precision	<+5MM
Air Pressure	0.5Mpa
Air Consumption	0.3m3/min
Power (kw)	13
Weight (kg)	5500
Dimension (l*w*h)	3000*2100*2100 rmm
