

PGS-Y600I / PGS-Y600II Tomato Paste Packing Machine

Tomato paste packing machine is widely used in packing filling of sweetened bean paste, filling of lotus meat, fruit jam, Chinese watermelon jam, cheese jam, sauce, salad, lotion, liquid, semi liquid. Equipped with input pump, the machine could automatically pack the products in high temperature that will improve the productivity, decrease the cost, and avoid making the twice packing.

Features

1. Touch screen display in Chinese and English, direct and easy to operate.
2. Advanced design for complete machine, reasonable structure, convenient adjusting operation and maintenance.
3. PLC computer-controlled systems to make the operation more stable. All the parameters can be adjusted without stopping the machine.
4. Accuracy weighing $\pm 1\%$.
5. The pouching, sealing, packing and data printing of products is done in one time.
6. Minimize the consumption with multiple kinds of auto warning protection function.

Technical Parameter:

Model	PGS-Y600I	PGS-Y600II
Bag width	100-250mm	100-290mm
Bag length	150-480mm	150-600mm
Packing material	Composite film (NY/PE)	
packing capacity	10-20 bags /min (And the filling volume, material consistency, environmental condition)	
Packing volume	Max.5000cc	Max.10000cc
making type	Back sealing	
Power supply	AC 380V 50Hz	
Power	4.5KW	
Air pressure	0.6-0.8 Mpa .0.006m3/min	
Dimension	L1350mm X W980mm X H 1980mm	L1350mm X W1080mm X H2150mm
Weight	980Kg	1080Kg
Name	Tomato paste packing machine
