

## *OC-200Y Small Stick Jelly Packing Machine*

Small Stick Sachet Liquid Packing Machine is mainly for automatic packing of fluid and semi-fluid products such as juice, jam, honey and other products. Its art process parts are made of stainless steel, which can well ensure the hygiene and safety of the products. It generally adopts high level balance tank or self-priming pump for quantitative filling and direct heat sealing and cutting, and it is convenient and reliable to adjust the bag size, packing weight and sealing and cutting temperature.

### **Application:**

This machine is applied to packing and sealing such foods as jelly, juice, yoghurt, ice cream, salad, condiments, drink or chocolate and so on.
