

HZJ250 Cartoning Machine

The machine is mainly used in the food, medicine, soap and cosmetics packing etc. It is designed with hot glue sealing or tucker type sealing systems. Chinese/English touch screen is easy to operate and do the parameters setting. PLC is used for accurate control, fast response, and high reliability. Hot glue temperature is auto controlled for easy adjustments.

Specifications:

Model	HZJ250
Wrapping speed(bpm)	200-230
Wrapping size(mm)	(75-200)*(25-75)*(25-55)
Power(kw)	3.5
Compressed air pressure(MPa)	0.5-0.6
Vacuum(Mpa)	-0.06
Overall dimension(mm)	3600*1300*2400
Weight(kg)	2600
