

Rotary Cap Liner Wadding Machine

We focus on the design and production of supporting equipment for the rubber and plastics industry, guided by customer needs, with technological innovation as the core, and we are committed to providing customers with humanized products and services.

Cap Liners machine can be widely used in bottle factory, pharmaceutical factory, food factory, daily chemical factory, oil plant, packing plant and other mechanical equipment.

It is suitable for all sizes of threaded PET lids. A combination of various complex caps, mainly consisting of edible oil, pesticides, everyday chemicals, beverages or water and other caps that require manual replacement.

Features:

1. Siemens PLC which can ensure stable performances
2. The machine can reject the defect caps automatically.
3. To avoid the abrasion outward appearance while process of press fit.

Product Specifications:

Product name	Auto Cap Lining Machine
Power supply	AC380V 10% 50HZ
Power	2Kw
Air compression	30L/min
Min.cap diameter	25mm
Max.cap diameter	60mm
Min.cap height	15mm
Max.cap height	25mm
Lining speed	120caps/min
Main machine size	1100mm*900mm*1400mm
Cap lift and cap feeding device	1700mm*750mm*1200mm
Color	Gray
Weight	1100kg
