

Markotec labeling system

Rotary Self-adhesive Labeler

Suitable for applying more than three labels on the same bottle and can complete various labeling types such as side label, back label, neck label, small label, etc. which is suitable for labeling different bottle types on the same machine (such as whisky, sake, sauces, seasonings), and one machine can meet various labeling demands. Solve the shortcomings of traditional models that cannot be used for multiple purposes.

Features

- Multi-servo motor design, the replacement of parts is simplified, and the bottle type can be changed quickly.
- Combining the advantages of linear, positioning labeler models meeting the requirements of better accuracy and higher speed.
- Rotary turret mechanism, the number of turret heads is configured according to the speed, and the current maximum can reach 12 heads.
- Standardized and modular design for easy maintenance.
- Color touch panel and PLC control system. Easy to learn and operate.

Optional Accessories

- Input & output turn table
- Various printer options (hot stamping, inkjet printer, thermal transfer printer, laser printers)
- The labeler can be flexibly configured in IN-LINE / OFF-LINE.

Specification

Model	Rotary self-adhesive labeler	
Labeler Line Speed	30 m/min	
Conveyor Line Speed	30 m/min	
Labeling Speed/small Rotary Heas	100BPM / 6heads	150BPM /12heads
Accuracy	±1.5mm	
Label Width	S (50mm) / M (100mm) / L (140mm) / XL (180mm)	
Object size	120mm	
Machine Dimension	3000mm(L) × 1800mm(W) × 2000mm(H)	
Power	AC 220V 50/60Hz Single Phase ; 8kW
