

## *Automatic Carton Box Packing Making Machine ZH-50S*

Carton semi-automatic packaging and sealing in pharmaceutical industry, food industry, cosmetics industry and auto parts industry.

### **Main Features:**

1. This equipment is specially designed for small output and multi-size carton packaging.
2. Small footprint, economical and practical and suitable for a variety of boxes.
3. Save labor cost, 40 boxes per person per minute, greatly improving production efficiency.
4. The whole equipment is made of stainless steel 304.
5. The equipment adopts advanced PLC control with touch screen operation function, and the production speed can be adjusted at will without adjusting any other parameters.
6. Advanced electrical control system: the imported encoder is used to control the electrical centralized, which is convenient to use and simple to operate.
7. The first carton feeding system in China, which realizes the function of adding new carton without stopping the machine.
8. This equipment can be connected with the front-end liquid filling machine, aluminum-plastic packaging machine, pillow packaging machine and other packaging machines, and realize fully automatic work. The back end can be connected to the labeling machine, strapping machine, heat shrinking machine and three-dimensional packaging machine.
9. Available optional functions: print production date, automatically add instructions, hot melt adhesive sealing device, automatic feeding device, etc.

Technical parameter:

<b>Model No.</b>	<b>ZH-50S</b>
<b>Production speed</b>	20-50 Cartons/min
<b>Carton size range</b>	L(40-200)mm×W(12-100)mm×H(12-100)mm
<b>Carton gram requirements</b>	135-350g/m <sup>3</sup>
<b>Motor power</b>	2.5KW
<b>Power supply</b>	Three phase 380V 50Hz
<b>Machine noise</b>	≤80dB
<b>Air pressure</b>	≤80dB
<b>Air consumption</b>	0.5-0.8 Mpa
<b>Air consumption</b>	150L/min
<b>Dimension</b>	1590×1380×1832 mm
<b>Machine weight</b>	650KG
