

## Open Mouth Bagging Machine

Open-mouth bagging machines' represent a mainstay of modern industrial packaging solutions and have no equal in terms of efficiency and precision. These are the cornerstones of packing operations across different sectors such as agriculture, food, pharmaceuticals, etc. Open-mouth bagging machines simplify the process of filling and sealing bags having varying contents like granules, powders, or aggregates.

### Technical Specification

Parameter	Specification
Bag Type	Open Mouth Bags
Bag Material	Paper, Plastic, Woven PP, etc.
Filling Capacity	5-50 kg (adjustable)
Filling Speed	Up to 12 bags/minute (varies based on product and settings)
Weighing Accuracy	±0.2% (typical)
Power Supply	220V/380V, 50Hz/60Hz (customizable)
Total Power	2-5 kW (depending on model)
Air Pressure	0.6-0.8 MPa
Air Consumption	0.6-1 m <sup>3</sup> /min
Material Contact Parts	Stainless Steel (SS304)
Control System	PLC Control System
HMI	Touch Screen Interface
Operation Mode	Manual/Automatic
Dust Collection	Integrated Dust Collection System
Safety Features	Emergency Stop, Overload Protection
Dimension (LxWxH)	Varies based on the model, typically 2000x1500x2500 mm
Weight	Varies based on model, typically 800-2000 kg
