

Fully Automatic Hard Gelatin Capsule Filling Machine *NJP-1250BF/CF/EF*

NJP-1250CF full automatic hard capsule filling machine: A. optimized design of full closed filling rotating mechanism, easy cleaning; B. upper and lower module one-way movement, imported double lip polyurethane sealing ring, good sealing performance; C. module plot work position blowing, suction combined to ensure high speed continuous transport mode hole without dust; D. new whole machine seal The technology can make the air pressure in the filling area lower than the external pressure, and the powder will not float away, which will affect the operator's health and space environment.

Technical Parameters:

Machine type	NJP-1250	NJP-1250F
Filling type	Powder, granule, tablet	Powder, granule, tablet
Applicable capsule model	(00#-5# capsule / safety capsule A-E)	
Highest yield	75,000 tablets / hour	75,000 tablets / hour
Power requirement	380V 50Hz 2.57kw	380V 50Hz 2.57kw
Noise indicator	≤75dBA	≤75dBA
Dimensions	1020×870×1980mm	1020×870×1850mm
Machine net weight	900kg	
Matching vacuum cleaner	XCJ-210(2.2kw)	XCJ-300(3.0kw)
