

SL-SBZB450RF Automatic Solid Desiccant Heat-sealing Wrapping Machine

SL-SBZB450RF is specially designed for desiccant, which has the characteristics of good sealing, no pollution, and high efficiency. It adopts the special technology of heat sealing and is equipped with several photoelectric detection devices to ensure the smooth operation of the equipment.

The vibration feeder has the characteristics of low noise and high efficiency, which makes the packer run automatically.

Technical Parameters

Packing speed	180pcs/min
Desiccant size	D: 18* H: 9.5mm
Power supply	4.0KW 380V 50HZ 3P
Packing material	AIHUA paper
Gross weight	1800KG
Dimension	2970*1520*2200 mm
