

XY-GB15-4 Customized One-piece Carton Wrapping Machine

Technical features:

- Using PLC programmable controller, encoder and photoelectric switch, touch screen man-machine interface. It can input, amend and store different packing specification data. Easy to operate with minimal training required, ensuring smooth and efficient production.
- Adopts cardboard one-time forming, unique technology of pressing carton, carton forming more solid with beautiful packing effect, the labor intensity of the operator is greatly reduced, and the requirements for the cardboard are greatly reduced.
- Adopt known hot melt equipment, easy for operation, durable using. Packing effect is artistic and easy for store and transportation. Delicate machine design figure and save space and safe.
- It can easily integrate into existing production lines.

Technical parameter:

Model	XY-GB15-4
Power supply	380V 50HZ 8KW
Air supply	≥6Kg/cm ² 0.5m ³ /min
Applicable Products	Bottled, boxed, canned, etc.
Applicable carton	L260-480*W200-420*H100-300mm
Sealing form	Holt Melt Adhesive

Glue consumption	3-5g/case
Packaging speed	10-15 case/min
Exit height	Exit 800±50mm
Forming size	3000*1840*2100mm
Mechanical weight	1500kg
Equipment material	The main body is made of carbon steel sprayed with plastic, and the part in contact with the material is made of stainless steel
