

LDS-2S/LDS-4S/LDS-6S Automatic Mayonnaise Vinegar Fruit Juice Ketchup Spout Pouch Filling Capping Machine

This machine is suitable for spout pouches and stand-up pouches for various liquid products, such as mayonnaise, vinegar, fruit juice, ketchup, jelly, soy milk, yogurt, mineral water, ice cream, edible oil, seasoning, detergent and other chemical products and so on.

Features:

1. The factory production of standup pouch filling capping machine, are automatic high-speed filling production line, from the bag, filling, cover, gland are fully automatic operation.
2. Electrical and pneumatic components are used both at home and abroad brand-name manufacturers of products, stable quality, long life
3. Important mechanical parts are used advanced precision machining center production, so the mechanical with a good, smooth work, advanced quality and reliable performance.
4. The machine adopts the new design more energy-efficient, the structure is reasonable and beautiful, adopts the acid-proof stainless steel material, each section can run independently, conforms to the hygienic standard, is convenient for the maintenance and is the automatic production line which is the self-standing bag product.

Specification:

| Model | LDS-25 | LDS-4S | LDS-6S |
|-----------------------------|--|--------------|--------------|
| Filling nozzles | 2 | 4 | 6 |
| Capping heads | 2 | 4 | 6 |
| Bag type | Pouch with spout and cap | | |
| Filling material | liquids, paste, oil, juice etc material that get ability to flow. | | |
| Filling range | 10-350 ml | | |
| Capacity (for 250g filling) | 1500-2000BPH | 3500-4000BPH | 4500-6000BPH |
| Power supply | AC 220V/380V 50/60Hz (can be customized based on different voltages) | | |
| Weight | 900kg | 1100kg | 1200kg |
