

## *SED-WT Horizontal Type Automatic Labeling Machine Glass Vial Automated Label Applicator*

Applicable for round objects with smaller diameter which cannot stand when labeling, such as ampoule, vials, blood collection tube, pen, sausage and so on.

(P.S. our labeling machine can be designed according to your needs)

### **Characteristics of Labeling Machine**

- Adopt mature technology PLC control system, operation is stable and high-speed;
- Using touch-screen control operating system, simple and efficient for operation;
- Advanced technology of pneumatic coding system, print the batch number and expiry date clearly;
- Transmission-type rolling bottle device, make sure the label attached more firmly;
- The damaged rate of bottle is less than 1/200000;

## Product Parameters

| Model                                 | SED-WT                               |
|---------------------------------------|--------------------------------------|
| Yield(pcs/min)                        | 30-200                               |
| Conveyor Speed(m/min)                 | ≤40                                  |
| The inner diameter of label roll      | 76 mm                                |
| The suitable size of label            | Width 15-100 mm length 15-80 mm      |
| Printer use air                       | 5kg/cm <sup>2</sup>                  |
| Weight(kg)                            | 200                                  |
| Driving Mode                          | servo motor                          |
| Operating direction                   | Left or Right                        |
| Labeling Accuracy                     | ±1.0 mm                              |
| The outer diameter of label roll      | 350 mm(max)                          |
| The suitable size of labeling objects | Customized depends on client product |
| Power(w)                              | 600W                                 |
| Machine size                          | 1800(L) 800 (W) 1500 (H) mm          |
