

VFFS420-Z1H10 Automatic Secondary Candy Packaging Machine

Multihead weighing and vertical bag making in one candy-packaging line. Feed, weigh, fill and seal the product in a coordinated process.

From rollstock to a sealed pack.

Film is formed around the product flow, filled, sealed and cut. The filling equipment and finished bag must be matched to your application.

Specifications

Model	VFFS420-Z1H10
