

Metal Detector ZT series

Suitable for: food, food additives, spices, medicines, health products, cosmetics and other industries of metal foreign body detection, cases such as: iron, stainless steel etc metal particles. Can be detected in bulk, bagged, bottled, boxed, etc.

Advantage:

1. Using the most advanced microcomputer to processing digital signal, highly improve the detection effect.
2. Has the memory function, can keep more than 20 products inspection effect.
3. Human nature of man - machine dialogue interface, setting convenient and intuitive.
4. The product effect signal has better inhibition effect.
5. All stainless steel has a good waterproof performance.
6. Full compliance with GMP, HACCP certification standards.

Technical parameters:

Models	ZT-2000A	ZT-2000B	ZT-5000
Measured on weight (maximum)	2 kg		30 kg
Channel size	80 * 300 (mm) LxW	120 * 300 (mm) LxW	400 * 600 (mm) LxW
The conveyor belt speed	30 m/min		
Testing method: manual: conveyor belt to stop automatically: alarm and automatically			
Power supply	220 V + 10% for 220 W		AC220 V + 10% for 500 W
Weight	100 ~ 200 kg		400 kg
